Minh Quan Tran

Susheela Narayan Hegde

Team Name:

Bin There, Done That

Project Name:

Smart parcel sorting system

SMART PARCEL SORTING SYSTEM

Date: July 2, 2025

LOGBOOK WEEK 9

1. Goal Past Week

- Continued to mount all the hardware.
- Start coding for the new state machine

2. Achievement

- Draw a SolidWorks design for table legs, step motor mount, sensor mount and shaft actuator.

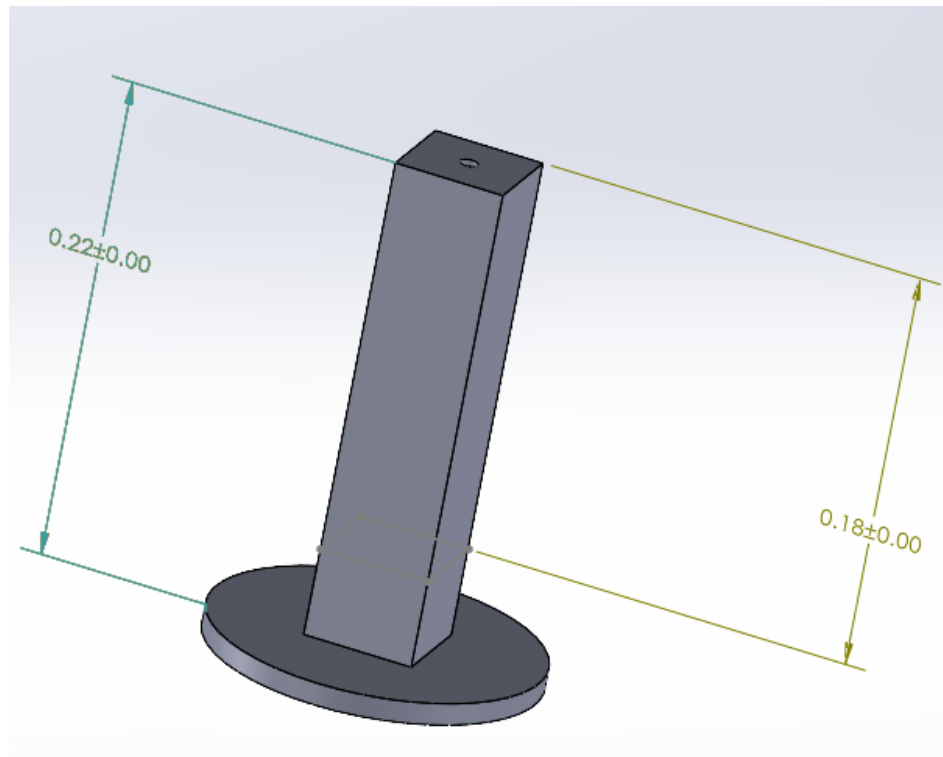

Figure 1: Table legs

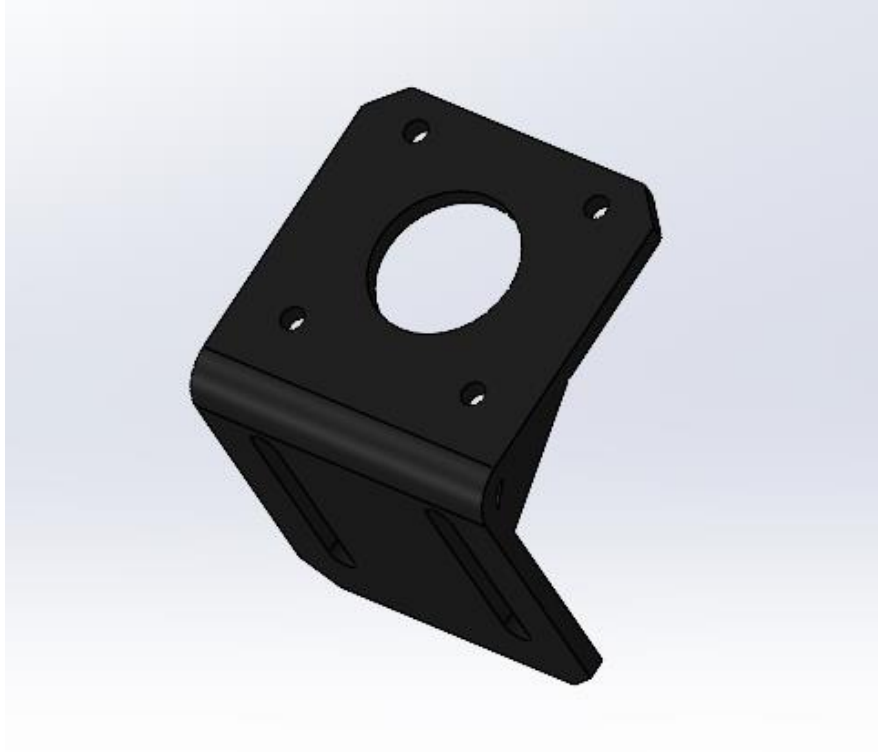

Figure 2: Stepper motor mounting bracket

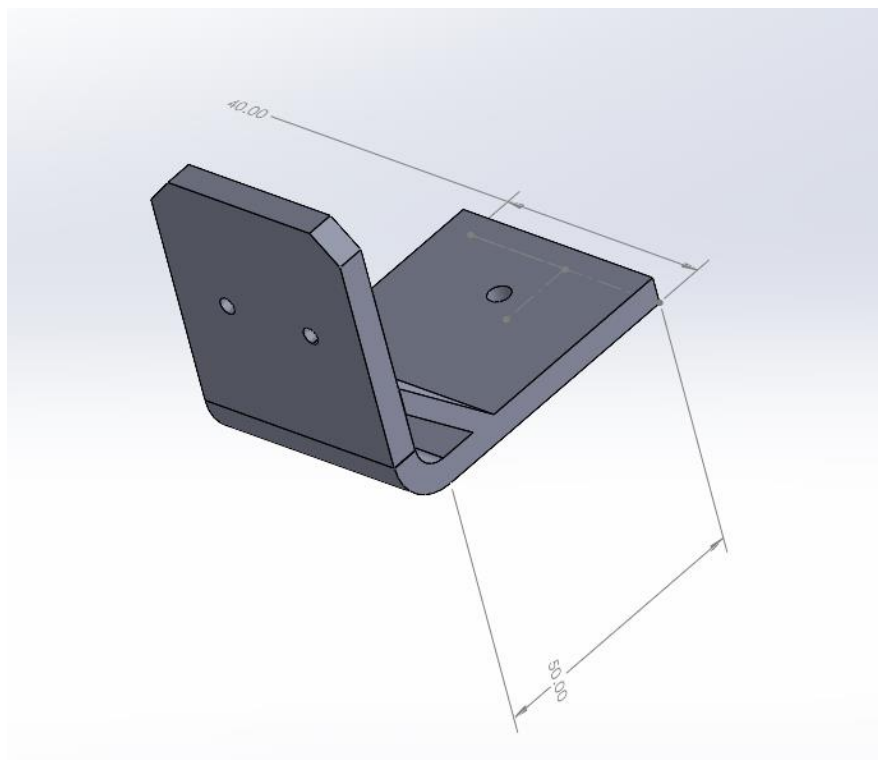

Figure 3: Sensor's mounting bracket

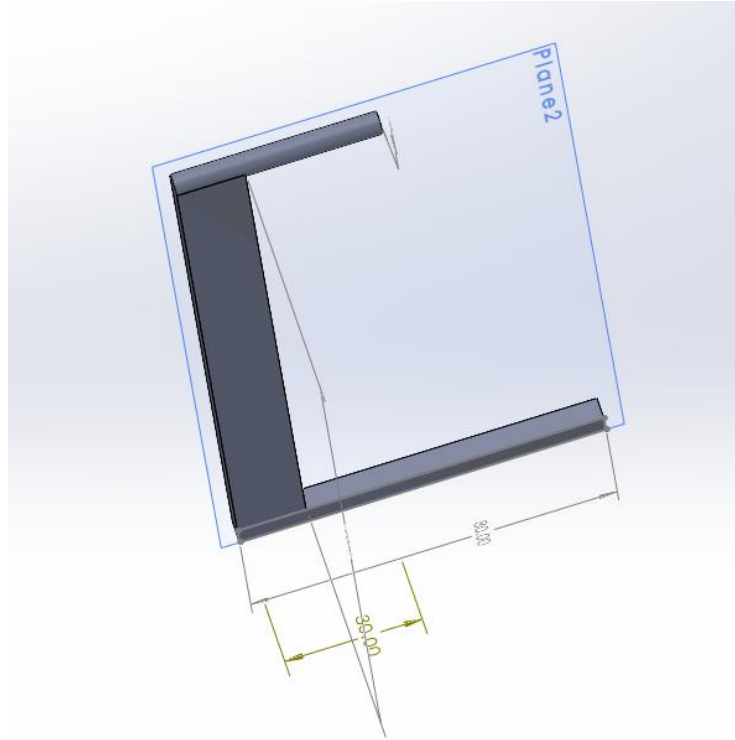

Figure 4: Motor's shaft

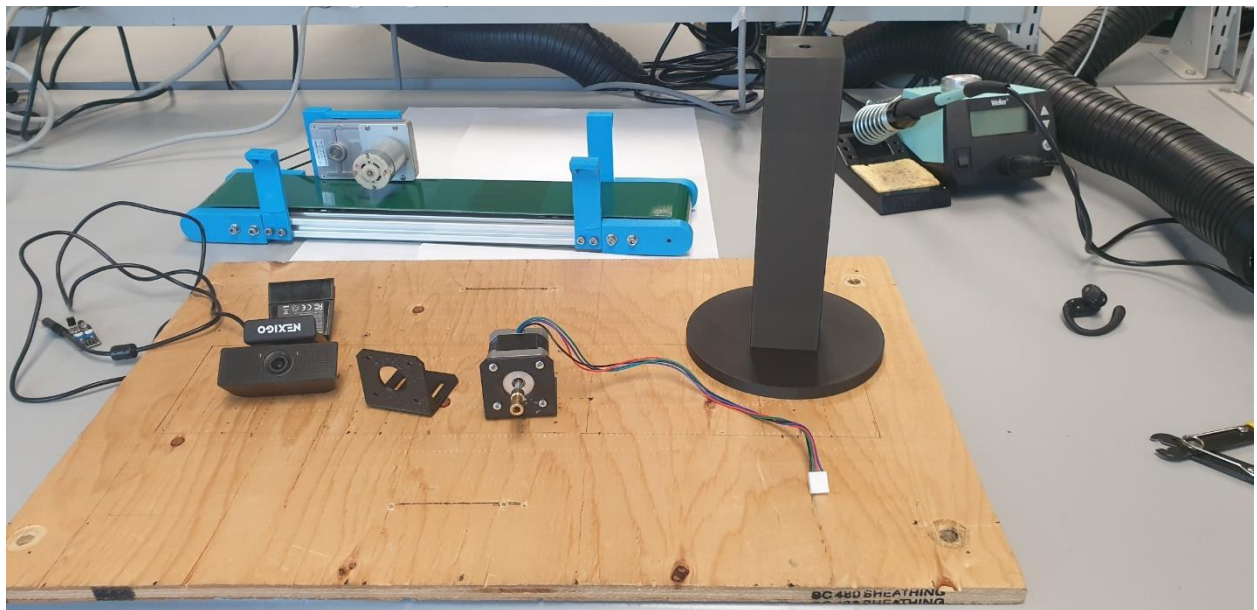

Figure 5: Mounted hardware (In progress)

2.1. Problems occur:

No problem

2.2. Resolve:

Not Applicable

3. Goal for Week 10

- Receive all 3d printed designs and start mounting all components.
- Start testing the state machine code on the system.
